

## MAGNETIC RACKS - 5/10

Having sharp knives in the kitchen is an absolute treat , and the best way to keep them sharp is to avoid glass/steel contact on the edges, and always store them on a magnetic knife rack. MAGRACKS are an easy, fast, way to care for your quality cutting tools. They eliminate the need to ever dry a cutting edge while being easy to keep clean. Just rinse the knife and attach - let your knives air dry! Roll blade off the back edge when removing.

### AWETECH MAGNETIC RACKS

**ATKR28/0094      28CM MAGNETIC KNIFE RACK      R99.00**

We designed this rack to easily mount on standard 300 upper cupboards. No cutting necessary

**ATKR180/00542      180CM MAGNETIC KNIFE RACK      R499.00**

These are 1.8 meter aluminium racks that we have had made manufactured for use in displays, butcheries and workshops. The lengths can be cut to suit your need and the Aluminium frame means that they will take heavy use and are a treat to keep clean. Lengths come with 2 end caps per piece.
